ACADEMIC CIRCULAR NUMBER 5/2022

TEACHING AND LEARNING METHOD FOR THE TRANSITION -TO - ENDEMIC PHASE EFFECTIVE 2022/2023 SESSION

With all due respect, please be informed that the Senate Meeting No. 10/2021/2022 dated 27 July 2022 has approved the Teaching and Learning Implementation Method (T&L) for the Transition to Endemic Phase effective 2022/2023 session as follows:

1. Courses that do not require laboratory/practical/hands-on activities are carried out physically and face-to-face. However, the blended learning support (BLS) will continue to be implemented along with the physical and face-to-face T&L.
2. Postgraduate courses by research mode that do not involve laboratory/ practical/hands-on activities can be implemented physically and face-to-face or online.
3. The implementation of the Substitute Blended Learning (SBL), where part of the SLT (Student Learning Time) of face-to-face and physical T&L delivery sessions is replaced by the online SLT, is permitted. This permission is subject to the approval of the Academic Committee (JKA) and the determination of the relevant professional accreditation body. The implementation of this PTG is in accordance with the UTM PTG Implementation Guide for the quality strengthening.
4. Courses that require laboratory/practical/hands-on/measuring tent/studio activities are carried out face-to-face and physically.
5. The industrial training for students is in accordance with the regulations of the company where the students undergo the industrial training.
6. The supervision for the undergraduate and postgraduate studies will be implemented online or physically and face-to-face, depending on the suitability of the student and supervisor.
7. The postgraduate research involving laboratory/studio/practical/workshop will be carried out face-to-face and physically. Postgraduate research that does not involve laboratory/studio/practical/workshop can be carried out face-to-face and physically or online.

8. The formative and summative assessment are fully implemented physically and face-to-face. For the courses in which the alternative type of assessment is mentioned in the Course Information, the assessment can be carried out physically and face-to-face or online.
9. The oral examinations for postgraduates can be conducted online or physically and face-to-face. However, research theses received starting 1 January 2023, will be given the priority to be assessed physically and face-to-face.

The implementation of online examination is permitted based on the needs of the examiner and student, the infrastructure availability and in compliance with the online oral exam implementation guidelines issued by the School of Graduate Studies.

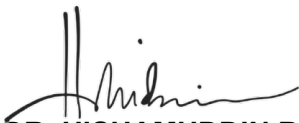

10. The oral examinations for undergraduates are conducted face-to-face and physically.
11. This implementation applies to all academic programs except for the Open and Distance Learning programs and programs that have been approved for online learning implementation by the University Management Committee.
12. The implementation of all T&L methods is subject to current amendments made by the National Security Council and the Ministry of Higher Education in compliance with the Standard Operating Procedure (SOP) set.

Thank you.
